Health, Safety, Security and Environmental Policy

We, Arabian Agricultural Services Company (ARASCO), are a food security enterprise believes that Health, Safety, Security and Environment (HSSE) are vital components of our businesses. Therefore, we are committed to our employees, stakeholders and environment by implementing world-class (HSSE) programmes and practices at our workplaces to ensure safe work environment and to go beyond compliance in all our endeavours through:

- Demonstrate visible leadership, commitment and involvement toward our HSSE Policy and Objectives.
- Comply with all applicable HSSE laws and regulations, ARASCO's HSSE Management System and other HSSE requirements.
- Enhance ARASCO HSSE Culture by focusing on Risk Management and Competence by training of our employees and contractors.
- Assess and Manage HSSE risks associated with ARASCO's business processes to as low as reasonably practicable to prevent workplace injuries, illnesses and violence.
- Set HSSE performance objectives, measure results, assess and continually improve our operations through the use of an effective management system.
- Minimize our impact on the environment through pollution prevention, reduction in consumption of natural resource, control of emissions, and recycling of waste.
- Maintain transparency, participation and consultation with our employees and other stakeholders toward HSSE aspects within our business.
- Implement effective system to ensure the security of employees and persons at our premises.
- Ensure availability of effective crisis and emergency management capabilities.
